

Flashlight Instructions:

1. Unscrew the lamp butt from the base of the flashlight in a counterclockwise direction and remove the battery carrier.
2. Insert three fresh RSUF18650 batteries (batteries not included for purpose of **hazardous materials** shipping) into the battery carrier. Make sure the batteries are facing the proper direction as indicated by the springs in the carrier. Negative (-) side of the batteries should contact the spring on the carrier.
3. Insert the battery carrier into the base of the flashlight with spring going down into the head of the flashlight.
4. Screw the lamp butt clockwise into the base of the flashlight until secured.

Settings/ The Mode:
